

Statement from Former U.S. President Jimmy Carter on Ukraine

Feb. 24, 2022

Russia's unprovoked attack on Ukraine using military and cyber weapons violates international law and the fundamental human rights of the Ukrainian people. I condemn this unjust assault on the sovereignty of Ukraine that threatens security in Europe and the entire world, and I call on President Putin to halt all military action and restore peace. The United States and its allies must stand with the people of Ukraine in support of their right to peace, security, and self-determination.
